

## Shop 12 W2500

The W 2500 is a robust Shop tool, capable of conducting Butt fusion welds up to 315mm. It features an electric planer, adjustable clamps and a built in force gauge.

Each tool is supplied with 315mm (12") Master Clamps and inserts for all sizes down to 50mm (1½").

The Shop 12 is ideal for bench type welding. The shipment crate supplied doubles as a convenient stand for mounting the equipment.

**Size Range:** 1½" – 12" (50 mm – 315 mm)  
**Amperage:** 16 Amp.  
**Voltage:** 110 AC
